

## CURRICULUM VITAE

A motivated and enthusiastic aspiring Full-Stack Developer with practical experience designing, building and deploying web applications using JavaScript, React, Node.js, Express.js, PostgreSQL, PHP, MySQL, Bootstrap and REST APIs. I am also confident working with Python and have working knowledge of Java and C#.

CompTIA A+ certified, I have developed a portfolio of full-stack projects that demonstrate front-end and back-end development, database design, API integration and deployment skills.

Alongside my technical training, I have built strong reliability, organisation and teamwork skills through several years of professional employment, while independently developing my programming knowledge and practical experience. I have a genuine passion for technology, enjoy learning new frameworks and tools, and thrive on solving technical problems through logical thinking and continuous improvement.

I am now seeking an entry-level Full-Stack Developer, Software Developer, Web Developer or IT position where I can contribute to real-world projects, continue developing my technical expertise and grow as part of a collaborative development team.
